

California Right Meds COLLABORATIVE

Fall 2026 Learning Session

From Insight to Impact: Elevating Mental Health Care in Community Pharmacy

The California Right Meds Collaborative (CRMC) is a sustainable and scalable, value-based medication therapy optimization initiative established in partnership with the Los Angeles County Department of Public Health, the Centers for Disease Control and Prevention, the California Pharmacists Association, health plans, and a curated network of community pharmacies. CRMC is dedicated to advancing chronic disease management, improving medication-related outcomes, and strengthening population health across local communities. The Fall 2026 Learning Session will equip pharmacists and healthcare teams with practical strategies to expand access to mental health and substance use disorder care. This live virtual program will feature expert presentations, interactive polling, case-based learning, breakout discussions, and practice-focused sessions addressing psychotropic medication management, long-acting injectable antipsychotics, emerging addiction therapies, collaborative care models, and innovative community pharmacy services.

**HOURS OF CONTINUING
EDUCATION FOR
PHARMACISTS**

Featured Keynote Speaker

Natalie Do, D.O., Pharm.D.

Medical Director, Behavioral Health, CalOptima Health

A double board-certified psychiatrist, licensed pharmacist, and USC Mann School of Pharmacy alumna, Dr. Do will explore critical gaps in mental health and substance use disorder care. She will highlight potential opportunities for community pharmacists to expand access, strengthen care coordination, and improve patient outcomes.

Event Highlights:

Join us for a dynamic virtual learning experience featuring expert presentations, live polling, case-based learning, breakout discussions, and practical takeaways that can be applied in community pharmacy practice.

- Psychotropic Medication Management
- Substance Use Disorders and Emerging Therapies
- Long-Acting Injectable Antipsychotics
- Collaborative Care and Community Pharmacy Models
